

# WHY CHOOSE BARD MANUFACTURING?

*Rugged, Reliable HVAC Systems Built for Demanding Applications.*

## What Sets Bard Apart:

### Over a Century of HVAC Innovation

Founded in 1914, Bard Manufacturing has grown from a small heating and plumbing shop into a global HVAC leader while remaining family-owned and focused on long-term customer relationships and dependable equipment.

### Industry Leader in Wall-Mount HVAC

Bard is widely recognized for self-contained wall-mount heating and cooling systems, providing efficient comfort without rooftop penetrations or complex refrigerant piping.

### Designed for Real-World Durability

Bard systems are built for challenging environments including schools, telecom shelters, modular buildings, industrial sites, and data centers, operating reliably across extreme temperature ranges.

### Simple Installation & Service

Self-contained packaged units allow installation without field refrigerant charging or extensive piping, helping reduce installation time and simplifying maintenance for service technicians.

**Exterior Wall-Mount Air Conditioners**  
Self-contained packaged cooling systems designed for reliability, quiet operation, and efficient performance in commercial and modular applications.

### Wall-Mount Heat Pumps

High-efficiency heating and cooling systems that provide year-round comfort while maintaining the durability and simplicity Bard wall-mount units are known for.

### Gas/Electric Wall-Mount Systems

Combine gas heating and electric cooling in a compact wall-mounted design ideal for commercial facilities needing reliable heating capacity.
